

## Appendix 2:

Could I respectfully remind board members that they are representing their sector within Croydon, not their individual school/educational establishment? I am, however, aware that one or two schools/establishments may be the only ones in their sector in this area.

This means that, in nominating a deputy to attend in your absence, you should try, as far as possible, to choose someone who is from another school/establishment and within the same sector. This will help to ensure that we have the widest possible representation and participation on the board at every meeting.
